

LEE JIA YEN

AN ASPIRING FRONTEND DEVELOPER

PROFILE

I was part of a 6 months part time Web Developer bootcamp with Lewagon Singapore while holding onto a full time job as a Shipping assistant manager in Evergreen Marine Singapore Pte Ltd.

The 6 months journey was not easy for someone who do not have any coding background. Through perseverance and hardwork, i found confidence in building the frontend. I would want to learn more frontend languages and improve my skills as i work.

SKILLS

Coding Languages

Ruby on Rails: 2/5

Frontend HTML /CSS: 3/5
